Supplier Quality Policy

Owner: Purchasing team. Effective 1 May 2026.

Suppliers must deliver on or before the agreed date. A shipment that arrives late incurs a penalty of five percent (5%) of the shipment value, deducted from the next invoice.

A supplier with three late or defective deliveries in one quarter is placed on probation. During probation, Purchasing reviews every new order with that supplier.

Defect rates above 2% of units sold require a written corrective action plan from the supplier within 30 days.

Suppliers that remain on probation for more than 90 days may be ended.
